

LUGANA DOC RISERVA

BIOLOGICO

Thanks to its marked acidity, our wine from Turbiana grapes offers the possibility of refinement and aging, opening up to interesting and potential evolutions. Resting first in wood (in barrique and tonneau) and then in the bottle, contributes to the creation of a Lugana Riserva of great character, robust but at the same time velvety. The harmony between the cold, mineral notes and the complexity of the tertiary ones, favors pairing with structured dishes.

Saltaföss

“Saltafosso” (Jump the Ditch). Riserva represents crossing a river, overcoming difficulties. It is a message of Good Omen!

GRAPE VARIETY

100% Turbiana

PRODUCTION AREA

Lonato del Garda (BS)

ALCOHOL CONTENT

13%

SERVING TEMPERATURE

10 - 12 °C
